

Anti-Doping Education & Learning (ADEL)

UPDATE TO REQUIREMENT FOR COMPLETION OF WADA ON-LINE ANTI-DOPING EDUCATION & LEARNING PROGRAMME

Dear FMN & CONU Colleagues,

We inform you that the **certificate** for the ADEL programme, such as the anti-doping course for the International-level athlete, is valid for **2 years**. The two years start from when the riders first receive their certificate. For example, if they complete their Education Programme on 10 January 2023, their certificate will remain valid until 9 January 2025.

Consequently, we inform you that the riders do not need to repeat an Anti-Doping education course every year, be it from the ADEL platform or any programme from the National Anti-Doping Organisations (NADOs) and Nation Federations. This is now only required every **2 years**.

You will find additional information related to the ADEL certificates by clicking on this link:

<https://adel-help.wada-ama.org/hc/en-us/articles/360020034340-Tell-me-all-about-certificates>

We would ask you to share this information with your riders.

Thank you.

Best regards,

Dr David McManus
FIM Medical Director

Evelyne Magnin
FIM Anti-Doping Coordinator
