# **MOTUL FIM Superbike World Championship FIM Supersport & Supersport 300 World Championships**

## **Decision of the FIM World Superbike Stewards**

### **Penalty notice for MV Agusta Reparto Corse team**

Following an investigation, the MV Agusta Reparto Corse team's results from Phillip Island will not stand due to an unintentional engine infringement.

On July 30<sup>th</sup> 2020, the FIM World Superbike Stewards received a report from the FIM Superbike World Championship Technical Director, stating that some engines belonging to the MV Agusta Reparto Corse team were unsealed without prior permission after the Yamaha Finance Australian Round. This is an infringement of the 2020 FIM Superbike, Supersport and Supersport 300 World Championships regulations and specifically, article 2.3.10 in general and paragraph d.

FIM WorldSBK Stewards understood that the team's act didn't occur with an intention to make an infringement nor to gain an advantage in any way. This was more of a visual mechanical check and the result of a miscommunication. The team brought it upon themselves to contact the FIM about the issue. Nonetheless, the process was not performed as per the Championship regulations and therefore, article 2.3.10.d is very clear and must be applied in any case.

For the above reasons, the Stewards, in accordance to the FIM Disciplinary and Arbitration code, have decided to penalise the team with the disqualification from all events in which the below engines have been used 2 from Randy Krummenacher and 1 each from Raffaele De Rosa and Federico Fulligni.

#### **About the FIM ([www.fim-live.com](http://www.fim-live.com))**

The FIM (Fédération Internationale de Motocyclisme) founded in 1904, is the governing body for motorcycle sport and the global advocate for motorcycling. The FIM is an independent association formed by 112 National Federations throughout the world. It is recognised as the sole competent authority in motorcycle sport by the International Olympic Committee (IOC). Among its 50 FIM World Championships the main events are MotoGP, Superbike, Endurance, Motocross, Supercross, Trial, Enduro, Cross-Country Rallies and Speedway. Furthermore, the FIM is also active and involved in the following areas: public affairs, road safety, touring and protection of the environment. The FIM was the first international sports federation to impose an Environmental Code in 1994.
