## Appendix to these SUPPLEMENTARY REGULATIONS

### 1.) Additional headlights are permitted, including on the helmets.

Additional headlights including helmets are permitted. When the lights are mounted on the helmet, they must be small in size and fixed so that the system cannot hang on the head during a fall. Helmet lights must be attached to the peak and drilling any attachment holes to the helmet is prohibited. Total weight of helmet light/lights may not exceed 400 g

The technical Stewart inspects the system of fastening and can arrange this to change so the system is safe in a fall.

The use of helmet cameras is prohibited according to the decision of the FIM CD.

### 2.) Restart Motocross Test

Classification for each heat will be established taking into account the number of laps and the times of each rider.

For the winner and the riders having the same number of laps as him, their time will be taken into account.

For the riders who did not complete the same number of laps as the winner, the following formula will be applied to calculate their time:

Time of the rider divided by the number of laps of the rider and multiplied by the number of laps of the winner of his class in the heat and he can restart for the next heat.

If a rider does not cross the finish line within 5 minutes after the winner, his time will be the time of the slowest rider of his class in the heat plus 5% and he can restart for the next heat.

### 3.) Departure procedure to Enduro Test and Extreme test

The starting line is immediately after the time check and the rider can not wait in this area but he must start when start signal light goes off

### 4.) Enduro Test

If a rider does not complete the Enduro Test before 30', he is considered withdrawn and he cannot restart for the next special test.

### 5.) Extreme Test

If a rider does not complete the extreme test before 10', he is considered withdrawn and he cannot restart for the next special test.

### 6.) Tyres

Only the rider may change the tyres and he can only do this between Enduro test and Extreme Test.

Tyres must be in accordance with art. 01.51 TECHNICAL RULES
