Greece to Host 2020 FIM Junior Motocross World Championship

Following the announcement of the 2019 FIM Junior Motocross World Championship in Trentino, Italy, the FIM and Youthstream are pleased to announce the venue for the 2020 FIM Junior Motocross World Championship as well! The 2020 event will head to Greece and the former Motocross World Championship venue of Megalopolis.

Organized by the Aris AC together with ALMA Megalopolis and full support from Peloponnisios Prefecture, the event will mark the return of a world caliber event for the first time since the 2010 MX3 World Championship and the 2011 FIM Women's Motocross World Championship made stops in the ancient city at the PPC-MINES MEGALOPOLIS CIRCUIT.

Easily reached by the Kalamata Airport, Megalopolis has long hosted events of great significance from the battles of Thebans and Sparta in the 4th century to those of Stefan Everts and Pit Beirer in the 20th century being an outstanding host of the FIM Motocross World Championship in 1998 and 1999.

Ready to host the return of World Motocross the best Junior riders from around the world will travel to Megalopolis for a chance to be crowned a FIM Junior Mo-tocross World Champion or FIM 65cc Junior Motocross World Cup winner. The Greek city will now host 125cc and 85cc two stroke categories plus the young 65cc riders for the first time in its more than impressive history.

About the FIM (www.fim-live.com)

The FIM (Fédération Internationale de Motocyclisme) founded in 1904, is the governing body for motorcycle sport and the global advocate for motorcycling. The FIM is an independent association formed by 111 National Federations throughout the world. It is recognised as the sole competent authority in motorcycle sport by the International Olympic Committee (IOC). Among its 50 FIM World Championships the main events are MotoGP, Superbike, Endurance, Motocross, Supercross, Trial, Enduro, Cross-Country Rallies and Speedway. Furthermore, the FIM is also active and involved in the following areas: public affairs, road safety, touring and protection of the environment. The FIM was the first international sports federation to impose an Environmental Code in 1994.
