070.1.2 Definitions

A Track Racing meeting consists of all official activities related to racing, starting with the first administration controls and technical verifications until the settlement of all possible protests which are to be dealt with by the Jury or the Referee, if the Jury does not exist.

The actual racing consists of a series of several heats, between 4 or more riders or riders with passengers, referred to hereafter as rider(s), run on an elliptical track with a top surface in granite, shale, brick granules or similar unbound material rolled in on the base ground (Speedway), sand, shale or similar unbound material rolled in on the base ground (Long Track), firm, level turf with minor undulations (Grass Track) and ice with a minimum thickness of 10 cm (Ice Racing).

These meetings may be run between riders competing individually, as a pair, or as a team. Each heat will be limited to one class of motorcycles of the same group.

The FIM World Championships, Prize Events and **League Cups** recognised by the FIM, referred to hereafter as the FIM Championships **may** be staged in a series of qualifying meetings leading up to a Final, a Final Series or a Grand Prix Series.

LEAGUE

A league is a Speedway Championship run by an FMNR affiliated to the FIM and or in partnership with any FMNR/s affiliated to FIM.

LEAGUE MEETING

A league meeting that consists of international riders is, by definition, an International Speedway meeting.

CLUB

Clubs, associations, etc. enter a league tournament directly via registration or from a qualifying system. At the beginning of each season or before the beginning of the tournament, each Club (or association, etc.) will declare to its FMN and/or the FIM the list of Speedway riders composing its Speedway Team.

The riders taking part in an International League meeting can be from any nationality but must hold a FIM Speedway League licence issued by their FMN.

070.1.3 Supplementary Regulations

Supplementary Regulations, referred to hereafter as SR, must be issued by the FMNR in accordance with the FIM Sporting Code, the Track Racing Appendices or Regulations.

For all meetings counting towards the FIM Championships, the SR must be published at least in English and must be approved by the FMNR and the FIM, and subsequently ratified by the International Jury. One copy must be sent to the FIM Administration at least two months before the date of the meeting for approval by the FIM, preferably by electronic mail, confirmed by a copy sent by post.

After approval, and not later than 1 month before the date of the meeting, the FMNR must send copies of the approved SR to all persons concerned or connected with the meeting (International Jury Members, FIM Officials, FMNs, Riders, etc).

The SR must in no case modify the FIM Sporting Code and must be drawn up in conformity with the standard model established by the FIM Track Racing Commission, referred to hereafter as the CCP.

070.1.3.1 Amendments to the Supplementary Regulations

No amendment may be made to the SR after their approval by the FIM Administration or the FMNR. However, in exceptional circumstances, the International Jury or, if the meeting has not started, the FMNR after approval of the FIM, may authorise, an amendment to the SR, which has to be brought to the attention of all persons concerned.

070.1.4 Dates of the meetings

The dates on which the FIM Championship and Prize Event meetings are to be held will be prescribed, according to Art. 20.1.1 of the FIM Sporting Code, by the CCP, subject to the approval of the FIM Board of Directors. Each meeting will be allocated to a FMN. To provide for postponements which may be necessary by bad weather conditions for example, the FMNR must declare 2 re-staging dates, which should always be the 2 days following the original date of the meeting, and notify them in the SR.

070.1.5 Responsibility for organisation

The organiser of the meeting, whether an FMNR, an individual, a club, a corporate body or a member of such a club or body, is responsible for the overall staging and organisation of the meeting for which a permit or other authorisation has been granted by the FMNR, and for provision of all equipment required for the efficient running of the meeting.

For International Meetings and Prize Events, riders and passengers must be holders of a valid and appropriate International FIM licence.

For International league meetings each rider must hold a valid FIM International Speedway League licence.

Before the meeting, the holders of a FIM licence are required to present their licence to the Clerk of the Course.

070.4.4 Entries

No entry fee may be charged.

All entries must be made by the FMNs concerned to the FMNRs in writing on an entry form on which all information regarding the rider, passenger and team must be indicated.

Entries must be made not later than 1 month before the meeting. If this is impossible, the entries must be sent by fax or e-mail immediately (not later than two working days) after receiving the results of the previous round.

Provisional entries made by the rider's FMN by telefax or e-mail must be confirmed with the rider's signature on the official entry form immediately upon his arrival at the place of the meeting.

Team entries must be made by the FMNs on a collective form.

FMNs failing to send in entry forms, in accordance with the above, will lose their allocated place in that FIM Championship meeting.

A rider **or a team** who **refuses** nomination by **their** FMN for a FIM Championship, **Trophy, League** or cup or, having accepted nomination refuses to take part, shall be deemed suspended internationally for a minimum period of one day before to one day after the meeting concerned. Furthermore, **they** shall be considered ineligible for the all FIM Championships for the remainder of the season. **The FIM and the CCP Bureau may also pronounce a fine between 10'000 and 100'000 Euros.**

A rider **or a team** who starts in a FIM Championship and qualifies for the next round (i.e. Semi-Final, Final or Final series) must participate therein unless prevented from doing so by injury or illness (certified in writing to that effect by a suitably qualified doctor) or other "*force majeure*". A decision on the acceptability of other "*force majeure*" must be taken by the International Jury of the meeting from which the rider is absent or by the CCP Bureau, if the absence is known one week before the meeting.

The FIM and the CCP Bureau can withdraw a rider's/team licence and give a suspension to a rider or a team who refuse to participate in a FIM Championship to which they have been qualified or in which they have already been entered.

Once a rider **or a team** has been entered, no FMN, other body or person may withdraw **that competitor/team** from the competition without an authorisation from the FIM. **Violations of this provision shall be referred to the CDI.**

The CCP may refer the case to the CDI pursuant to Article 3.3.2 last paragraph of the FIM Disciplinary and Arbitration Code.

070.4.4.1 Cancellation of an Entry

A penalty of suspension entails the cancellation of all entries made by the sanctioned rider for any meeting to be held during the period of suspension.

070.4.5 Starting numbers

The starting numbers for every FIM Championship will be balloted. For the 1st meeting, the ballot is only effective according to the FMN of the riders. A balloted position is open to any nomination from the FMN concerned, up until the rider signs on or reports to the Clerk of the Course at the meeting. For the following meetings, they will be effective according to the results of the previous meetings or as indicated on the ballot sheets.

Every year, the riders will be allocated by the CCP Bureau to the next year's rounds counting towards the FIM Championships based upon written applications from FMNs, received by the FIM within the deadline stipulated by the CCP Bureau.

Places made vacant by withdrawals will be filled by CCP Bureau decision and any FMN not honouring its engagements may be penalised after an investigation of the circumstances by the CCP.

070.4.6.2 Qualified rider

A rider who qualifies for the next round or Final series of the FIM Championships.

070.4.6.3 Qualified substitute rider

A rider appearing on the approved list of qualified substitute riders for the Final series. If an originally qualified or permanently nominated rider is unable to participate and the time allows, he will be replaced by the next rider from the list of qualified substitute riders of that discipline.

070.4.6.4 Nominated rider

A rider who is selected to participate in a particular meeting or series of meetings.

The track reserve riders will replace, in rotation, the disqualified riders according to Art. 070.10.8.

For the first 4 heats (Speedway and Ice Racing and Track Racing Sidecar 1000cc) or for the first 3 heats (Long Track), a track reserve rider can refuse to replace a disqualified rider.

When a programmed rider or a passenger is injured during their 1st heat and, following confirmation from the chief medical officer, is not in a position to take part in all the subsequent heats (including the re-run heat, from which he must not have been disqualified by the Referee), then the track reserve rider, who has not ridden so far, will become a programmed rider.

When a programmed rider or a passenger is injured after his 1st heat or not in a position to take part in one or more of his subsequent heats (possibly including the re-run heat, in which he was injured but not disqualified by the Referee), the injured rider will be replaced by the track reserve riders, in rotation.

Any point gained by the track reserve rider in replacement of one or more programmed riders will count towards the results of the meeting and will also count as points towards the respective on-going Championship, if applicable. Conversely, the points gained by the injured or replaced rider will also count towards the results of the meeting and the respective on-going Championship, if applicable.

A track reserve rider cannot ride in more heats per day than a programmed rider.

For the first rounds of a FIM Championship, the track reserve riders will be nominated by the FMNR. From each qualifying meeting the highest point-scorer among those who failed to qualify, shall be a track reserve rider for the following round. The Track reserve must attend the FIM Championship meeting for which they are eligible.

The track reserve rider will be eligible to replace a programmed rider who is unable to compete in a following round and he will become a programmed rider. If time allows, the rider below him from the qualifying meeting concerned becomes the track reserve rider for that round.

070.4.6.7 Team reserve rider

A team reserve rider is a rider without programmed heats in the race format. He cannot ride more heats than a programmed rider.

If it is stated in the SR that the FIM or the Organisers supply the race jackets, it is then compulsory for each rider and passenger to wear this race jacket at all time during practice, press conferences, racing and Prize-Giving Ceremony. In this case, the FIM and/or the Organisers are permitted to use the race jacket for advertising purposes.

If this is not the case, the rider is allowed to use his race jacket for his own advertising purposes.

Racing numbers typed or stuck on the front or on the back of the racing suits are not allowed. The size of the back numbers on the jacket must be of 200 x 120 mm for each figure with a width of stroke of 30 mm. The size of the front numbers, on the left upper corner of the jacket, must be a minimum of 40 x 25 mm for each figure with a width of stroke of 6 mm.

When provided by the FIM and/or the Organisers, covering any part of the race jacket apart from the shoulder straps is not allowed.

Furthermore, if a machine is not in compliance with the current regulations after any heat, the rider will be disqualified from that heat.

In all FIM Championship meetings, the cylinder capacity and carburettor-choke size of all engines of all machines, employed by any rider may be verified immediately after the last heat.

The weight of some machines, chosen at random, may also be checked during and/or immediately after racing.

The Referee may order any engine or machine to be rechecked or re-tested at any time during practice or racing.

At all FIM Championships, Official FIM specification declaration forms are provided by the FIM for machine verification.

An environmental mat must be supplied with the refuelling area by the organiser.

070.7.3 Artificial heating of tyres

070.7.4 Number of motorcycles

Each rider will be allowed a maximum of 2 motorcycles in the pits during racing.

These two motorcycles must be placed in the riders' allocated pits' area immediately after the machine examination has taken place.

Motorcycles taken outside the controlled pits' enclosure or track area shall be re-presented for inspection before they can again be placed in the allocated pits' area.

If needed, a third motorcycle can be parked in the specially provided "standby" area, near to the pits.

070.7.5 Environmental Mat

When bikes are placed in the pits, the use of an Environmental Mat is compulsory for all riders and all their bikes. It must be used whenever working or parking the bikes, during practice and racing.

The Environmental Mats (one per bike) must be presented at the Technical verification.

The format may be varied only by decision of the CCP.

070.10 RACES

070.10.1 Direction of racing

070.10.2 Additional heats and other activities

During a Track Racing FIM Championship meeting, support races may be permitted. However, these support races, as well as any other activities such as the vehicular use of the circuit during the meeting, including demonstrations or exhibitions, must at all times receive prior authorisation from the FIM and the Championship Promoter.

Authorisation from the FIM does not imply nor include any FIM involvement in and/or liability for these support races/activities which are not run under the aegis and the responsibility of the FIM.

Priority must at all times be given to the Track Racing FIM Championship programme.

070.10.3 Punctuality in starting

All heats must start at the time announced and riders must hold themselves ready for the start when called upon to do so by the appointed Official.

Speedway and Ice Racing

The Referee must indicate the start of a 2 minutes period by means of a warning horn or bell audible in the pits area together with the flashing amber lights if all the riders are not in the starting area at that time. This warning shall apply to all 4 riders and can be given only once.

Except when the Referee considers that there are valid reasons for delaying the start of an ensuing heat, the interval between the finish of one heat and the start of the next shall not exceed 4 minutes including the 2 minutes period as mentioned above.

Should any of the riders not be ready to start within the 2 minutes, they shall be disqualified from the heat.

In individual competitions, the disqualified rider shall be replaced by a track reserve rider.

Long & Grass Track and Track Racing Sidecar 1000cc

The Referee must indicate the start of a 3 minutes period by means of a warning horn or bell audible in the pit area together with the flashing amber lights if all the riders are not in the starting area at that time. This warning shall apply to all riders and can be given only once.

Except when the Referee considers that there are valid reasons for delaying the start of an ensuing heat, the interval between the finish of one heat and the start of the next shall not exceed 5 minutes including the 3 minutes period mentioned hereunder.

Should any of the riders not be ready to start within the 3 minutes, they shall be disqualified from the heat.

In individual competitions, the disqualified rider shall be replaced by a track reserve rider.

070.10.4 Starting positions

Riders who are members of the same team or pair can change with each other their programmed starting positions in the same heat.

However, the helmet colours must remain as programmed in the race format.

070.10.5 Starts

On the order of the Pits' Marshal (or after a signal in the pits) the required riders must leave the pits together and proceed under power immediately in an anti-clockwise (Track Racing Sidecar 1000cc in a clockwise) direction to the starting area where they must stop under the control of the Starting Marshal.

Engines must be kept running, machines parallel with the inner edge of the track and front wheels not more than 10 cm from the tapes of the starting gate.

The Referee, when satisfied that the riders are correctly positioned, must switch on the green light indicating that the start is imminent and that the Starting Marshal must walk away from the tapes. After a pause long enough for the riders to fix their attention on the tapes, the Referee must release the gate.

070.10.6 False start

A rider who allows their motorcycle to move forward and touch or break one or more tapes of the starting gate after the Referee has switched on the green light must be disqualified. The heat must then be started properly.

070.10.7 Delaying the start

A rider who fails to ride directly and without delay from the pits to the starting line, delays the start in any other manner or who prevents the starting gate from being released properly may be disqualified from the heat at the sole discretion of the Referee.

070.10.8 Replacement of disqualified rider

In individual contests, a rider disqualified under the provisions of Art. 070.10.3, 070.10.6 or 070.10.7 shall be replaced by a track reserve rider.

In Pairs and Team meetings, a rider disqualified under the provision of the same articles may not be replaced by a reserve rider.

070.10.9 Faulty starting gate

If, because of faulty operation of the starting gate, or for any other reason, the Referee considers a start to have been incorrect, he must immediately stop the heat and order a restart with all riders competing.

If the starting gate should fail to operate entirely, the Referee may start the heats by using the green light (which would be switched off to indicate the start); alternatively a flag may be used.

070.10.10 Starting assistance

After the green light has been switched on (or other starting warning given), or the start machine being released, no outside assistance may be given to any rider.

If, at that time, a rider's machine is not moving under its own power, the rider concerned is disqualified from the heat and must leave the track with his machine.

070.10.11 Leaving the track

A rider whose machine crosses the inner edge of the track with 2 wheels must be disqualified unless, in the opinion of the Referee, the action was taken in the interest of safety for other riders or the rider involved was forced off-course by another rider.

This rule also applies to the crossing (solo: 2 wheels and Sidecar: Sidecar wheel) of the marking of the outer edge of a track.

070.10.12 Noise disqualification

If any part of the motorcycle's exhaust system during racing or practice becomes displaced, detached or damaged or fails in any other way so that all the exhaust gases do not pass through the silencer in a proper manner, the rider concerned will be immediately disqualified from the heat or from the practice run.

070.10.13 Foul or dangerous riding

The Referee shall immediately disqualify any rider team whom he considers indulges in foul, unfair or dangerous riding.

There shall be no protest or appeal against a Referee's decision to declare a heat completed or as to his statement of foul, unfair or dangerous riding.

If, in the opinion of the Referee, such conduct produces an advantage to the rider (or team) involved or affects the chances of one or more riders, the Referee may stop the heat and order a re-run.

If any rider is unable to cross the finish line as a result of foul, unfair or dangerous riding on the part of another rider who, in consequence, has been disqualified, the disadvantaged rider shall be deemed to have finished the heat in the placing held immediately before the foul, unfair or dangerous riding and allowing for any advancement in placing following the disqualification of the guilty rider.

A similar system shall apply for a rider/sidecar team who, in the opinion of the Referee, has deliberately laid down his machine or has left the course in the interest of safety.

070.10.14 Outside assistance

A rider must be disqualified from a heat if, after the green light has been switched on (or other starting warning given), or the heat has been properly started, he receives outside assistance except for removing him and/or his machine from the track in the interest of safety.

All contacts by other persons with the rider or his machine, whether intended to give assistance or not, shall be deemed outside assistance.

070.10.15 Disqualifications

A disqualified rider must leave the track without delay and return to the pits as soon as possible after the heat is stopped or finished.

If a rider is disqualified after the finish of a heat, the following rider or teams must be advanced one place.

070.10.16 Time limit

No protest or appeal is permitted against this rule.

A rider must be considered as having retired from a heat if he has not started their last lap before the winner has crossed the finish line.

Speedway and Ice Racing

A rider must also be considered as having retired from a heat if he has not completed the required number of laps within 3 minutes of the start.

Long & Grass Track and Track Racing Sidecar 1000cc

A rider must also be considered as having retired from a heat if they have not completed the required number of laps within 6 minutes of the start.

070.10.17 Finish of a heat

The finish of a heat shall occur in the case of any of the following circumstances.

a) when the front part of the front wheel of the motorcycle (whilst attached to the machine) passes over the finishing line after completing the appropriate number of laps provided the Competitor is in contact with his motorcycle.

b) when the referee has awarded the heat as provided for in these regulations.

070.10.18 False finish

When a heat has been indicated as finished by display of the black-and-white chequered flag before the required number of laps has been completed by the leading rider, the Referee must declare the heat void and order a rerun.

If the black-and-white chequered flag has not been shown after the completion of the required number of laps, the flag shall be considered to have been shown.

070.10.19 Rerun heat

If an accident on the track occurs and, in the opinion of the Referee, it is dangerous for the heat to continue, he must stop the heat. Only the Referee is empowered to order a heat to be stopped.

Any rider who, for any reason, is deemed to have been the primary cause of the heat being stopped shall be disqualified from the rerun. A reserve rider is not permitted to take their place.

The Referee may permit any rider who has fallen as a result of having been fouled or because they have deliberately laid down their motorcycle or left the course in the interest of safety to take part in the rerun. In such cases any outside assistance may be ignored.

If a Referee declares the heat over after one or more riders have crossed the finish line, it shall not be re-run. Except in very special circumstances and situations that are beyond the control of the referee and have influenced the heat result. Then a heat can be re-run. Only the referee can take this decision and order a re-run.

Any rider eligible to take part in a rerun may change their motorcycle for the rerun.

A reserve rider is permitted to replace a rider who has injured himself or damaged his motorcycle but who has not been deemed to be the primary cause of the heat being stopped.

When taking part in a rerun, riders must start from their original starting positions and any permitted reserve rider must occupy the position of the rider he is replacing.

When a rider has been disqualified in Pairs or Team heats, his partner may choose his original start position or that of his disqualified partner.

Any rider who has failed to start in, has retired from (which includes not proceeding under power when the heat was stopped) or has been disqualified from a heat which has been ordered to be rerun, shall be ineligible to take part in the rerun, except in circumstances where they have retired after being fouled or have stopped in the interest of safety as described above.

070.10.20 Withdrawal of a rider/Team

Having entered a meeting in the proper manner, any rider **or team** who fails to present themselves ready to ride at the time stipulated in the SR, or who refuses without reasonable cause, as determined by the Referee, to ride in any heat in which they are due to ride shall be guilty of an offence for which they may be penalised by the International Jury.

A rider, who, having started in a heat does not make an honest attempt to ride to the best of their ability, as judged by the Referee, shall be guilty of an offence, which may entail disqualification from the heat or a penalty.

No rider may leave a meeting, withdraw from or cease to participate in a meeting without permission. Such permission can be given only by the Referee after consultation with the International Jury.

An FMN or an organiser, official or other person withdrawing, or attempting to withdraw any rider (except in case of injury), Pair or Team from a heat or from a meeting shall be guilty of an offence for which they may be penalised by the International Jury or the CCP Bureau. The penalty can be a fine or an unlimited suspension.

070.11 RESULTS

070.11.1 Calculation of results

Results are normally determined by points related to finishing order. Other methods may be used, but the method must be stated in the SR.

The winner of the heat is the rider who has completed the required number of laps in the shortest time. The riders following are placed according to the order of crossing the finish line.

Only the Referee is entitled to determine the points for each rider in each heat, taking also into consideration the second sentence of Art. 070.10.15 – Disqualifications.

His decision, once announced, is final and may not be the object of protest. Once the Referee has declared a heat over and he has announced the finishing order and respective points, in no case shall that heat be re-run.

When two or more riders cross the finish line together, the combined points for the places must be shared equally between the riders concerned.

When World Championship points are awarded according to the finishing order of Final heats, a chronological criteria should be used for awarding points (when applicable).

A rider (for Sidecar, both the rider and passenger) must be in physical contact with his (their) machine when crossing the finishing line.

070.11.2 Riders' scores

In each heat, points are awarded to riders as follows:

Heats with 4 riders:	3 points for 1 st place
	2 points for 2 nd “
	1 point for 3 rd “
	0 points for 4 th “

Heats with 5 riders:	4 points for 1 st place
	3 points for 2 nd “
	2 points for 3 rd “
	1 point for 4 th “
	0 points for 5 th “

Heats with 6 riders:	5 points for 1 st place
	4 points for 2 nd “
	3 points for 3 rd “
	2 points for 4 th “
	1 point for 5 th “
	0 points for 6 th “

For riders who have not completed the required number of laps or, for any other reason have not fulfilled a heat, the following will be noted in the programme:

M = disqualified for 2 or 3 minutes rules
 R = retired from the race
 F = fall but not disqualified

T = disqualified for false start
 d = disqualified
 N = no start

070.11.3 Ties

In all run-off heats concerning the ties, the starting positions at the gate shall be balloted in presence of the Jury President.

Individual Speedway and Ice Racing, Track Racing Sidecar 1000cc

For all meetings, after the official programme of heats has been terminated should there be a tie for the first 3 places or for the last qualifying place or substitute position to go forward to the next round, there will be a heat to resolve the tie.

For all other cases, ties will be solved as follows:

- a) Precedence will be given to the riders (tied on points) having the most number of 1st, 2nd, 3rd, 4th (5th or 6th where applicable) placings. (an "0" for last placing being better than M-R-F-T-d-N).
- b) If the tie still persists and involves only 2 riders, precedence will be given to the best placed rider in the heat where the 2 riders met.
- c) If the tie still persists and involves more than 2 riders, it shall be checked whether there is a possibility to determine a proper precedence (i.e. 3 riders tied on points: A, B, C):
 rider A has beaten rider B
 rider A has beaten rider C
 rider B has beaten rider C
 Then the precedence will be: best position for rider A, then rider B and then rider C.
- d) If solutions a), b) and c) cannot be used, the order shall be determined by ballot.

When five riders are tied on points, the following run-off schedule must be used:

Heat 1:	Riders A, B and C
Heat 2:	Riders D and E
Heat 3:	2 nd and 3 rd from Heat 1 and 2 nd from Heat 2
Heat 4:	1 st from Heat 1, 1 st from Heat 2, 1 st and 2 nd from heat 3

The riders must be balloted to heats 1 and 2.

In case one or more run-offs cannot be held because of *force majeure*, then precedence will be given to the riders (tied on points) according to points a), b), c) or d) of this article.

Team Speedway and Team Ice Racing

For all meetings between Teams, should there be a tie for the first 3 places or the last qualifying place; the tie will be solved by a new heat with one rider from each Team involved in the tie.

If this heat cannot be held because of *force majeure*, the ties will be solved as follows:

- a) Precedence will be given to the Team (tied on points) having the most number of 1st, 2nd, 3rd, 4th (5th or 6th where applicable) placings. (an "0" for last placing being better than M-R-F-T-d-N) taking into consideration the placings of all riders of each Team.
- b) If solution a) cannot be used, the order shall be determined by ballot.

Starting Area

If only two riders take part in the run-off, the starting area must be divided into two equal parts (outer and inner start position).

If three riders take part in the run-off, the starting area must be divided into three equal parts.

Individual Long & Grass Track and Grass Track Youth Gold Trophy 125cc and 250cc

For all meetings, after the official programme of heats has been terminated should there be a tie for the first 3 places or for the last qualifying place or substitute position to go forward to the next round, there will be a heat to resolve the tie.

In case of one or more ties at the end of the Qualifying Heats, the following will apply:

1. Precedence will be given to the riders having the most number of 1st, 2nd, 3rd, 4th, 5th or 6th placings where applicable (an "0" for last placing being better than M-R-F-T-d-N).
2. Ballot.

Team Long Track

In case of one or more ties for the Teams at the end of the Qualifying Heats, the following will apply:

- a) Precedence will be given to the Team (tied on points) having the most number of 1st, 2nd, 3rd, 4th, 5th or 6th placings. (an "0" for last placing being better than M-R-F-T-d-N), taking into consideration the placings of all riders of each Team.
- b) If the tie still persists, precedence will be given to the Team having the best single individual score.
- c) If the tie still persists, precedence will be given to the Team having the second single best individual score etc.
- d) If solutions a), b) and c) cannot be used, the order shall be determined by ballot.

If this heat cannot be held because of *force majeure*, the ties will be solved by ballot.

In case of a tie after a Final heat, precedence will be given to the Team of the rider who has won that Final.

070.11.4 Interruption of a meeting

If a meeting is interrupted or suspended for any reason whatsoever, the following rules will apply:

Speedway, Long & Grass Track, Track Racing Sidecar 1000cc and Ice Racing (when run on 1 day):

- a) When a meeting is interrupted before the accomplishment of 50% of the scheduled heats per participant (rider or team) but can continue the same day, then, only the remaining scheduled heats will be staged after the interruption. The final classification will be established taking into consideration the heats staged before and after the interruption.
- b) When a meeting is interrupted before the accomplishment of 50% of the scheduled heats per participant but cannot continue the same day, then, the results of the staged heats will not be taken into consideration. The meeting will be re-staged from the beginning on the date(s) stipulated in the Supplementary Regulations.

- c) When a meeting is interrupted and cannot continue on the same day, and if 50% or more of the scheduled heats per participant are accomplished, then, the meeting must be considered as valid. The position in the final classification will be established by adding the points scored by each participant (rider or Team) in the same number of accomplished heats which means that when a participant (rider or Team) had the opportunity to accomplish one more heat than the other participants, then, that heat must not be taken into consideration (example: an individual meeting is interrupted after heat 14 and cannot continue the same day. The final classification will then be established taking into consideration only heats 1 to 12). This rule applies entirely to each single day of a 2 days Ice Racing meeting.

Ice Racing (when run as "2-day formula")

- a) When the meeting of the 1st day is interrupted before 50% of the scheduled heats per participant have been accomplished and the remaining heats cannot be staged the same day, then the results are not taken into consideration. Only, the heats of the 2nd day (which must be more than 50% of the scheduled heats per participant will count for the final classification.
- b) When a valid result of the 1st day is accomplished but the 2nd day of racing is interrupted before 50% of the scheduled heats per participant for that day have been accomplished, then the International Jury, taking into consideration the track and weather conditions, will decide if the Organisers can re-stage the 2nd day or consider, for the final classification only the results of the 1st day.

070.11.5 Communication of results

Immediately after the meeting, the FMNR must send by fax (must be typewritten) or e-mail to the FIM the complete results of all participants who competed in their meeting. In all meetings, after the official programme of heats is terminated, there shall be a Prize-Giving Ceremony.

The riders or teams placed first, second and third shall attend the official Prize-Giving Ceremony.

Protests and appeals are subject to the rules and proceedings provided for in the FIM Disciplinary and Arbitration Code.

Any protest must be lodged immediately after the reason for the protest is known. They must be in writing and accompanied by the fee stipulated in the SR and submitted to the Clerk of the Course who in turn will submit them to the Referee. If the protest requires a measurement of the capacity of an engine which proves to be in order, then the protesting party must pay the actual labour costs for dismantling and reassembling the engine, up to a maximum of 300 Euros.-.

Any irregularity, error or fraudulent action on the part of the rider (and/or the machine concerned) that could influence on the result of a heat or the race would be followed by sanctions (cancellation of the points of the heat or the meeting, disqualification, suspension, etc...).

A rider can only compete for one team per year in the FIM Speedway Club Championship. If a rider has a contract and competes for more than one team participating in the FIM Speedway Club Championship, the following order will apply:

1. Precedence is given to the nationality of the rider, (i.e. a Swedish rider will compete for his Swedish team, regardless of what contract he may have with other clubs in the competition).
2. If nationality is not applicable, precedence is given to the team where the rider currently has been contracted the longest.
3. If the length of the contract is not decisive, precedence will be given to the team where the rider rode in more than half of the teams league matches the previous year, excluding eventual Play Offs.
