## 7. RIDERS

### 7.1 ENTRY CONDITIONS FOR THE RIDERS

- The Organising Committee reserves the right to refuse the entry of a rider, without having to give the reasons of this refusal.
- To be registered in an event of the Cross-Country Rallies World Championship, any person over 18 years, from any country, must hold a FIM rider's licence for the Cross-Country Rallies World Championship valid for the year of the event (art. 70.2.1 FIM Sporting Code), released by his own National Federation and holding a driving license corresponding to the capacity of his motorcycle.  
Any copy of statement of loss or theft of the above mentioned documents will not be accepted as it does not legally substitute the possession of a driving license conform to the capacity of the motorcycle.
- The maximum number of motorcycles accepted is 100.
- Any rider who is replaced by another one on his motorcycle during the race will be excluded from it, as well as the motorcycle of this last mentioned driver.

- The rider enters Abu Dhabi Desert Challenge 2011 at his own risk, being fully aware of the danger associated with the event. For this reason, the rider relieves the Organiser, the FMNR and the FIM from any penal and/or civil responsibility in case of physical and/or material damages incurred as a result of his participation in the event.

## **7.2 ENTRIES**

Any person wishing to take part in the Abu Dhabi Desert Challenge 2011 must send to the Secretariat the signed entry application along with the authorization from their FMN and accompanied by the amount of the entry fee that will be increased by 50% for the riders not accepting the optional advertising of the Organisers. The entry fee is valid to 23:59 Feb 20<sup>th</sup> after which 20% will be added to closing date, March 17<sup>th</sup>.

Up to the time of the Controls, the rider shall be free to replace the motorcycle entered.

If a motorcycle does not correspond, in its configuration when presented for the technical Controls for Scrutineering, to its entry category, the motorcycle concerned may, on a proposal by the Technical Stewards, be transferred by the International Jury to another category.

The entry fee will be fully reimbursed:

- a) To applicants whose entry has been refused;
- b) In the event that the Rally is cancelled.

### **Team Entries**

Team entries must be composed of motorcycle and riders whose individual entries have been accepted.

Each team may consist of a maximum of 5 motorcycles and a minimum of 3. The performance of the best 3 motorcycles will count for the final results. No motorcycle may be included in more than one team eligible for the same award.

Each club, ecurie, manufacturer (represented by his Agent or Distributor in the UAE), may enter more than one team for the corresponding award, but for each award the same competitor may only be part of one team.

Motorcycles included in a make team may not necessarily have been individually entered by the same entrant. In such a case the written approval of the individual entrant must be produced. They must however, be of the same make but not necessarily of the same model or type.

The winning team will be the one, which has the smallest number of penalties in the General Classification for the best 3 motorcycles of each team. In the case of a tie for a Team Award, the winning team will be the one which has the highest placed motorcycle in the General Classification. If less than 3 motorcycles of a team are classified as finishers then that team will not be considered for the Team Award. The disqualification through a penalty other than delay of one of the team's motorcycles will cancel out the whole team.

## **17.3 HELPING AT AN ACCIDENT**

It must be remembered that ethics demands that a rider who sees that an accident has occurred must stop in order to provide assistance in the most appropriate manner until the rescue service arrives. Also, it must be remembered that major means are implemented to shorten the intervention times.

Any rider that witnesses an accident placing another competitor in physical danger must:

- Stop,
- Press the green button on their 'tracking, position and inter competitors communication system' (IRITRACK),
- Telephone rally HQ using the IRITRACK (blue button) to report the situation,
- Wait for the rescue service or another competitor to arrive,
- Press the green button on their IRITRACK, to signal that they are leaving the scene.

At the request of the competitor on arrival at the end of the Leg, the stopping time between the 2 IRITRACK alerts (green button) will be deducted from the time taken to cover the Selective Section.

Any competitor not complying with the above regulations will be reported to the Stewards who may impose penalties up to and including exclusion from the event.

## **18. WITHDRAWAL - EXCLUSION**

### **18.1 DEPOSIT - RIDER'S DUTIES**

N/A

## **19. FIXED PENALTY**

**19.1** A fixed penalty of 2 hours will be applied to competitors who miss or fail to complete a Section within the Maximum Time Allowed for that section:

The total time attributed, to the competitor who has missed or failed to complete

a section(s) within the permitted maximum and therefore, to whom the fixed penalty applies, for each leg, will be calculated by adding together the maximum time(s) authorised for the Selective Section(s), increased by the fixed penalty (2 hours) for each section, the penalty(ies) for any missing Passage Controls (3 hrs), the penalty for missed WPs (15 mins), the fixed penalty (2 hours) for any Road Section(s) missed, or not completed within the permitted maximum time, and any penalties incurred by specific cases as summarised in these Supplementary Regulations.

This case supposes that at least 50% of the passage controls, of the leg, have been observed. If this is not the case, the fixed penalty for that Stage will be doubled to 4 hours.

**19.2** The target time for all sections will be given in the itinerary, the road book and on the time card.

On Road (Liaison) Sections, lateness up to 30' will incur a penalty of 1' per minute late. Lateness, in excess of the maximum 30' will be ignored and the fixed penalty of 2 hours will be applied to the competitor.

Example: Road Section target time 35'

Competitor completes in 35' – no penalty

Competitor completes in 48' – 13' penalty

Competitor completes in 68' – 2 hour penalty

Competitor completes in 33' – 4' penalty (early).

Competitors completing the Selective Section within the Maximum Time will be given this time as their stage penalty.

A Competitor who fails to finish the final Road Section of the Leg, within 30' of the target time, is over maximum lateness and is considered to have retired from that Leg. The fixed penalty for that Road Section is 5 hours.

Example

Com	RS 45'	Pen	Stage Max (6:30')	Fixed Penalty	Missed PC's/4	Pen	Misse d WPs (55)	Pen	RS 2 (30')	Pen	Total
1	45'	-	5:20:11	-	0	-			30'	-	5:20:11

\*43 – Retires (or is over Maximum Lateness) on final Road Section

\*52 - Takes the Start (Machine under its own power and crew present) and retires on the first Road Section

\*64 – Does not take the Start of the Leg.

**19.3** All Legs of the event are straight, with Start and Finish linked by surfaced roads, or loops, where the Start and Finish are in the same place or close together, therefore for competitors who fail to attempt a Stage ie not taking the Start of that Leg, with the rider present and the machine propelled by its own power, will be penalised by 100 hours. If this is repeated, then the Stewards may inflict a sanction which may go as far as exclusion.

**19.4 Passage Controls Penalties**

Competitors are required to stop within the Passage Control Zone to have the Time Card stamped by the PC Controller. Failure to visit any Passage Control will result in a time penalty of three (3) hours, for each missed PC. The controller at each PC will record the time of entry of each competitor in minutes and seconds. In the event the Special Stage is shortened, due to 'force majeure' the times recorded at the last Passage Control will determine the finish times of that Selective.

**20. SAFETY PLAN**

The safety of the competitors is under the control of the well established and experienced Desert Challenge Search & Rescue Team who coordinate the welfare of all riders based on information received through the Iritrack system, marshal and competitor communications.

They control three dedicated helicopters, the sweep team and a medical team composed of all the required specialities. Three local hospitals are alert and on standby with ICU reserved for event casualties.

## Supplementary Regulations of Abu Dhabi Desert Challenge 2011

A clinic is situated at the bivouac which is manned 24 hours a day.

Riders are expected to respect the emergency protocols and available resources in a manner commensurate with the vital nature of this service.

Riders are reminded that they are responsible for their own welfare and should pay good attention to hydration which is the biggest contributing factor to emergency evacuations from the stages which in turn place avoidable stress on the system and resources.
