FIM Homologated helmets compulsory for all FIM World Championships and Cups' Circuit Racing Riders, as from 2020

Dear Riders,

As you know, January 1st 2020 was an important date for some FIM Circuit Competitions as it is now mandatory for the riders to wear a FIM Homologated helmet (These rules were already valid for MotoGP, Moto2, Moto3 and SBK since June 3rd 2019).

What is a FIM Homologated helmet and why the standards have changed?

A FIM Homologated helmet is a helmet that is already homologated for street usage but has passed additional testing required by the FIM. These tests have been put in place to give a **better protection to the riders with innovative evaluation criteria**. It became clear that the old homologation standards were out of date and it was necessary to update them.

The homologation is granted by size and by combination of accessories which means that a certain model could not be available in all dimensions.

You can find in the table below the concerned disciplines for which the FIM Homologation Standard is compulsory (and the date of application).

Disciplines	Date of application
FIM Grand Prix (MotoGP, Moto 2 and Moto3) World Championships	June 3 rd 2019
FIM SBK World Championship	June 3 rd 2019
FIM Supersport World Championship	January 1 st 2020
FIM Supersport 300 World Championship	January 1 st 2020
FIM Sidecar World Championship	January 1 st 2020
FIM MotoGP Rookies Cup	January 1 st 2020
FIM Moto3 Junior World Championship	January 1 st 2020
FIM Land Speed World Records	January 1 st 2020
FIM MotoE World Cup	January 1 st 2020
FIM Endurance World Championship and Cup	January 1 st 2020

We are aware that some brands are difficult to find in retail shops.

As you will need to present your helmets at the first Technical control of your series (February 2020 for Supersport riders), we enclose here attached some coordinates of manufacturers which agreed to give them to you. We hope that this will be helpful.
