*New FIM CCR homologated protective devices*

Dear Sir or Madam,

Please note that two new foam protective systems have been successfully tested and homologated by the CCR-FIM Bureau.

These 2 new homologated models are:

**SPM Energy Absorber Type B1** homologated as a Type B

**SPM Energy Absorber Type C2** homologated as a Type C

We also remind you that, as from 2018, the straw bales will be prohibited on the FIM homologated circuits.

The FIM Standards for Circuits are therefore amended as follows:

#### **4.10.1 CCR/FIM HOMOLOGATED PROTECTIVE DEVICES**

The following protective devices are homologated by the CCR/FIM (see manufacturers' and/or distributors' details in Annex):

##### **Type A**

###### **•Air Active Protective Devices**

Alpina Air-Module AA

###### **•Air Protective Devices**

Alpina Air-Module

Airfence Type I S and Airfence IIS

SPM AirPADS

Trackcare Inflatable Barrier

###### **•Foam Protective Devices**

Alpina Super Defender and Alpina Super Defender 2

Airfence Bike and Airfence Bike Evo

Bridgestone Module 1000 and Bridgestone Module 1300

Recticel Safeguard barrier 1 and Recticel Safeguard RR

SPM Energy Absorber Type A

Trackcare Hi-Lite

PKS Modele 1

**Type B**

Airfence Type I and Airfence Bike B  
Alpina Defender Barrier  
Recticel Safeguard barrier 2  
**SPM Energy Absorber Type B1**

**Type C**

Straw bales wrapped in a fire-resistant bag (grey colour recommended) *NB: As from 2018, straw bales will be forbidden.*  
Filling Italiano Protection System (ONDA 27/33 - 20/26),  
Alpina Synthetic bales and "Big bales"  
PKS Modele 5  
Recticel Safeguard barrier 3 and Safeguard barrier 4  
**SPM Energy Absorber Type C2**  
Trackcare barrier

**Type D**

Car tyre barrier covered with conveyor belt

**Type E**

Car tyre barriers

All additional protective devices must be placed against the rigid obstacle (no free space).

The homologation report may require contingency type C protective devices to be available at each FIM event.

All protective devices must be used according to the manufacturer's indications.

These tests could possibly be organised at the same time as the homologation circuit.

We remain at your disposal for any additional information you may require.

With best regards,

  
Paul DUPARC  
CCR COORDINATOR

ENCLOSURE: Co-ordinates of manufacturers homologated by the FIM-CCR
